HOW WE HELP CLIENTS

Nex-Generation Battery Evaluations

ExpONENT provides comprehensive battery evaluation services for a wide range of applications, including electric vehicles, commercial fleets, and emerging transportation technologies. Our experts analyze battery performance, safety, and lifecycle costs to help clients make informed decisions.

Electric Vehicles

ExpONENT provides comprehensive battery evaluation services for electric vehicles, including performance testing, safety analysis, and lifecycle cost modeling.

Commercial Fleets

ExpONENT provides comprehensive battery evaluation services for commercial fleets, including performance testing, safety analysis, and lifecycle cost modeling.

Emerging Transportation

ExpONENT provides comprehensive battery evaluation services for emerging transportation technologies, including performance testing, safety analysis, and lifecycle cost modeling.

UNPARALLELED CAPABILITIES

Cutting-edge Insights for Battery Technologies

At Exponent, we provide cutting-edge insights for battery technologies. Our experts analyze the latest developments in battery chemistry, materials, and manufacturing processes. We help our clients understand the competitive landscape, identify key trends, and make informed decisions about their battery technology investments. Our services include market research, technical analysis, and strategic consulting.

Battery Failure Analysis & Investigation

Exponent's Battery Failure Analysis & Investigation services help clients understand the root causes of battery failures. Our experts use advanced diagnostic techniques, including electrochemical testing, thermal analysis, and microscopy, to identify the underlying issues. We provide detailed reports and recommendations to prevent future failures and improve battery performance and reliability.

Our Battery Failure Analysis & Investigation services are designed to help clients understand the root causes of battery failures. We use a combination of laboratory testing and field data to identify the underlying issues. Our experts provide detailed reports and recommendations to prevent future failures and improve battery performance and reliability.

Battery Design Review, Quality & Safety Assessments

Exponent's Battery Design Review, Quality & Safety Assessments services help clients ensure their battery designs meet the highest standards of quality and safety. Our experts conduct thorough design reviews, quality assessments, and safety evaluations to identify potential risks and ensure compliance with industry standards and regulations.

Our Battery Design Review, Quality & Safety Assessments services are designed to help clients ensure their battery designs meet the highest standards of quality and safety. We provide detailed reports and recommendations to improve design quality and ensure compliance with industry standards and regulations.
